

Twin Rivers Unified School District has collaborated with American River College to create a Dual Enrollment Social Science Pathway. This pathway allows TR students to earn college **credits while simultaneously earning high school credits.** Below shows the **ARC courses offered** in the 2023/24 school year, and the high school credit they receive. Students have the potential to earn a Social Science Associate's Degree by the time they graduate high school.

ARC Courses that meet High School Requirements for High School Pathways
